

SmartReports Add-on Solutions for MYOB - Leverage your investment in MYOB systems further by automating business functions not available in MYOB.

- ✓ Are you spending additional time and effort in maintaining details in spreadsheets and other systems that you would like maintained in MYOB?
- ✓ Are you duplicating data in MYOB and other systems to get the outcome you want?
- ✓ Do you need the flexibility to maintain additional material and automatically transfer the data to MYOB?

SmartReports Add-on Solutions has helped a number of businesses to protect and leverage their MYOB data.

**Specialised Invoicing
Customised Budget Tracking
Unique Discount Structure
Bill of Materials System**

"The Bill of Materials works well with MYOB and saves time, money and is completely accurate with respect to our financial accounting. This system is far superior to our previous software"

**Mr Michael D'Allura, Director,
Valsapori Pty Ltd**

No matter what your requirements are, SmartReports can design and build a customised Add-on Solution to your MYOB system that will help you maintain additional functionality to MYOB, automatically transfer data to MYOB (eg Invoicing, Journals etc) and basically leverage your investments in your MYOB System.

FREE!! Contact SmartReports today for an initial two-hours consultancy valued at \$250 on how to leverage your MYOB system further.
